OUR STORY

Our founder directors Sajjad Meherally and Neil Sanghavi, are college buddies with big dreams and lots of drive. With past experience at Ogilvy, B4U movies, Rediffusion DYR, their first project together, was under the Times of India banner for the Filmfare Awards. Their passion for events, their ability to execute large-scale dreams and drive for success, pushed them to start their own company- and in 2008 they created Oxygen

As the team grew, through tireless effort and turn-key projects, Oxygen built a network of reliable partners and an enviable list of clients. Highlight projects include events and conferences for the likes of TCS and the Tata Group, visits of high-profile dignitaries and on-ground promotional campaigns for mega events like IPL and FIFA. For the past decade, we are proud to be associated with some of the largest events in the country for industry leaders like Yashraj Films, Sony Pictures, Audi, DC Design, Forevermark, Femina, Conde Nast and Youtube

We continuously strive to deliver more with every passing day, as our journey only goes from good, better to the very best!
